

8th SOPHIA Workshop PV-Module Reliability

September 3rd – 5th, 2018

University of Ljubljana, Slovenia

The program topics

Block 1: Reliability and degradation effects in PV-Power plants

Block 2: Innovative devices providing new challenges for performance and durability assessment

Block 3: Characterisation of location specific stress combinations"

Block 4: Polymers in PV-modules

Block 5: Glass-Glass PV-modules

Block 6: New equipment for testing

Group Discussion: Future ALT standards

Visit the workshop's website:
