About the workshop

Workshop is intended for a forum of global trends in photovoltaics in the fields of research, industry and market. Especially PhD students are encouraged to participate. You will get the chance to meet researchers from across the Europe, get to know their research projects and share the common issues and challenges.

The workshop will consist of but not limited to the following themes:

1. Advanced concepts of solar cells and PV modules,
2. Photonics in photovoltaic devices,
3. Advanced optical modelling,
4. Material and device characterisation,
5. Performance, reliability and monitoring of PV modules and systems,
6. Storage and smart grid,...
