About the workshop

Workshop is intended for a forum of global trends and current challenges in photovoltaics and nanophotonics in the fields of research, industry and market. Especially PhD students are encouraged to participate. The workshop offers an excellent opportunity to meet and discuss with invited speakers and researchers from across the Europe, get to know their research projects and share the common issues and challenges.

The workshop will consist of but not limited to the following themes:

1. Performance, reliability, and sustainability of photovoltaic systems,
2. Indoor and outdoor monitoring of PV modules and systems,
3. Big-data approach in the field of photovoltaics,
4. Power electronics and other BoS components,
5. Advanced material and device characterization techniques,
6. Advanced concepts of solar cells and PV modules.

Submission guidelines

All abstract submissions should contain no more than 200 words and up to 5 keywords in a MS Word file, using template: http://euroreg-pv.fe.uni-lj.si/Abstract_template.zip
